APPRAISERS QUIT FOR TIME

Engineers May Not Resume Water Works Inquiry for a Month.

OFFICIALS MAKE OBJECTIONS

Wright and Rosewater Hold that Size of Mains as Given by Company Differs from City Record.

Inspection of water pipes was resumed the appraisers yesterday after a formal sitting in the rooms of the water onard, when maps and schedules were received, both from the city and the water works company.

There were two features to the session the first being the declaration of City Attorney Wright and City Engineer Rosewater, who has returned from Ann Arbor, that the length of various sized mains as given by the corporation does not correspend with calculations by the municipal engineering department, and the second being the-fallure of the company to have all the information ready which the board requested at the last session.

It was arranged to place the maps submitted by the city in the hands of the company, and the schedules and maps furlished by the company in the hands of the city officers, so that the information advanced could be checked and, if possible, reconciled. An understanding also was reached so that the uncompleted schedules when furnished will be placed in the hands of Stenographer C. C. Valentine, submitted to the city for inspection and placed in the hands of the appraisment board without compelling the engineers to return to Omaha especially for the purpose.

Will Adjourn Indefinitely.

The board will adjourn Saturday for an ndefinite time. Chairman Mead says he cannot say when the next Omaha session will be held, but Appraiser Benzenberg is nclined to think it will be in a month or

The appraisers are relicent as to expressing opinions relative to the condition of the pipe found at eleven excavations

An attache of the water board said that the pipe inspected Thursday was found in generally good condition, although in a few cases there was doubt whether or not tuberculation existed.

Three excavations were made in the vicinity of the street railway power house. No visible indication of electrolysis existed. Another point will be pierced for this purpose at Twentleth and Izard streets, the location figuring in a district court suit, wherein it is claimed the sidewalk sank because of the excretion of water from the pipes, due to the effect of the electric current on the metal.

Data to Be Considered.

Maps submitted by the city show a general plat of the main distributing system; the location of street car lines, gas pipes, telephone and electric light conduits: the lengths, kinds and quality of paving, to which a supplementary statement will be added showing the depth and kind of foun-

General Manager Fairfield for the water ompany submitted schedules showing the location, sixe, make and age of the 1,351 meters owned by the company, and the location, make, size and pressure carried at the 1,857 hydrants of the entire system, neluding Omaha, South Omaha, Florence, Dundee and East Omaha.

The schedules not ready refer to valves, special castings and crossings. That conterning the valves will be ready Saturday, according to the statements made.

Remedies for Poisons.

A manual for reference, "Poisons-Reme dies," is the title of a neat cloth-bound book of seventy-five pages, issued by the Mutual Life Insurance company of New York. It contains valuable information classified, so as to be instantly available and is a most excellent little book for any- eral children, has left no descendants. one to have at hand in case of emergency, Springfield (Mass.) Republican. It will be sent free to anyone writing to the above company at 33 Nassau street, New York.

Get out your old spelling book. It will be useful after you see The Sunday Bee.

JAG AS IS

Corking Stuff Which Tommy Atkins Imbibes to Make 'is 'end Swim.

However profound Rudyard Kipling's knowledge of Thomas Atkins may be, he has not yet fathomed the ingenuity and resource of his humble friend. The bard of the barrack room has told us that When the 'arf-made recruity goes out to

the east,
'E acts like a babe an' 'e drinks like a beast,
An' 'e wonders because 'e is frequent deceased, Ere 'e's fit for to serve as a soldier, But he had in mind only the "raw pay'nets" dispensed as whisky in filicit cancordite out of the cartridges he carries.

teens. Thomas has outgrown this infants' When he wishes to attain a satisfying degree of intoxication he ents the Cordite is a substance resembling spaghetti, and is said to have a sweet flavor. It is composed of: Nitro-glycerine, 58 parts; guncotion, 27 parts; vaseline, 5 parts. To the uninitiated the prescription does not sound appetizing, yet the cordite jag acimulated no little popularity on the South African veldt. The British Medical Journal is authority for this statement. It cites one Major Jennings as a witness.

The major, purely as a matter of duty. onsumed one of these explosive cocktails, and after his recovery gave a scientific decription of his experience. The most exiting feature was "a headache lasting thirty-six hours." This certainly establishes the effectiveness of the new intoxi-But it is a "dum dum" drink, and under the rules of war its use should be forbidden.-Fhiladelphia North American.

If you can spell, you may win a prize. Watch The S-inday Bec.

Last of the Nipmucks.

The last of the Nipmucks died the other day at Oxford, in the person of Mrs. Althea Hazard. The Nipmucks were a tribe of the Algonquid nation, which at the early settlement of New England by the whites occupied nearly all its territory, and the region of the Nipmucks was central Massachusetts, throughout Worcester county, with the Penacooks northward, the Wam-Best Set Teeth .....\$7.50

DESULT OF CONSTANT CARE is what the readers of The Illustrated Bee receive each week with their favorite Sunday magazine. Not a number of this paper is sent to press but what is edited and made up with the most scrupulous vigilance, the idea being always to produce a paper with which the most fastidious can find no fault, and at the same time one that will possess sufficient intrinsic merit to entitle it to the good opinion of everybody. This verdict was long ago won, and is held by the same means. Each number of the paper gives evidence of the care bestowed upon it in every department, and its continued popularity is proof that the trouble taken to niake it the best is not wasted. Comparison with other Sunday magazines will demonstrate the correctness of all that is claimed for The Illustrated Bee. It leads.

CONTENTS OF THE COMING NUMBER COMPRISE special illustrated articles on "The Limbo of Derelict Street Cars," an interesting phase of local life; "Dedication of the York home for the Young Men's Christian Association," which tells of the enterprice of a Nebraska city; "Ezra Millard Can-ton, Patriarchs Militant," the cham-pion drill team of the Odd Fellows of Nebraska; "Millions in Sand Banks," which tells how a great city is supplied with a necessity for building; Frank G. Carpenter's weekly letter, this time telling of the Frenchman's burden in Africa and elsewhere; a beautiful frontis plece, "The Autumn Bride," tures of the new military post at Fort Des Moines, a picture of the late Levi M. Carter, and other in-dependent pictures of interest.

CYRUS TOWNSEND BRADY IS THE AUTHOR of the new serial story that starts in the next number of The Illustrated Bee, "A Little Traitor to the South," a tale of the wartime. In addition there is the regular Illustrated Woman's Department, the Short Stories, Personal Comment, the Field of Electricity, Some Modern Romances, a new story of Captain Larsen and Trig Olafsen by Albert Sonnenschein, and the usual carefully selected short miscellany. Some changes have been made in the makeup and arrangement of the paper this week, a few new fea-tures being added for the purpose of making the paper more attrac-tive, if possible. It will be found complete in every respect. If you are not already a subscriber, you should leave your order with your newsdealer today.

Mortality Statistics.

The following births and deaths have been reported to the Board of Health:
Births-Nicholas Camero, Eleventh and Dorcas, girl; Charles M. Jarvey, 1139 South Twenty-eighth, boy; Patrick Walsh, 2225 South Twelfth, boy; Price Sims, St. James hotel, girl; George B. McGinn, 1531 North Nineteenth, boy.
Deaths-Mrs. J. J. Smith, Twenty-fifth and Seward, 35; Margaret Galligan, 2233 Castellar, 52; Mrs. Mary Ellen Cree, 832 South Twenty-second, 31; D. C. Chapman, 2225 Willis avenue, 57.

Railway Notes and Personals.

General Charles F. Manderson, general solicitor of the Burlington, is expected home from his western trip this morning.

The special train bound for Minnespolis via the Chicago Great Western, which left yesterday at 730 a. m., carried about 250 Shriners. George F. Thomas, general agent of the line, went with the party to see that everything passed off smoothly. Mr. Thomas will return to this city Saturday evening.

C. S. Myers, rate clerk for the Union Pacific, was present at the meeting held in Chicago, Thursday, to consider the matter of making a special rate for the annual convention of stock men to be held in Portland. Ore, during January. No agreement was reached as to a circuit rate for the occasion, and the meeting was adjourned to convene later for the consideration of the same subject.

Notice has been sent out by the manage-

ation of the same subject.

Notice has been sent out by the management of the Illinois Central that its trains No. 6. which leaves the Union station at 10:45 a.m., and No. 5 which arrives at 5:10 p. m., will be discontinued after Sunday next. The reason given is that business is never so good in passenger traffic during the winter months, and as these are local trains, in addition to which two other daily local trains are run, it is believed the amount of business which can be secured during the winter months will not warrant the continuation of the service.

Notes from Army Headquarters. Captain Harry A. Williard of the Fifth Inited States cavairy was an army headquarters visitor.

Captain Charles W. Castie, Tenth United States infantry, was a visitor at army headquarters Thursday.

Captain F. B. Shaw of the Thirtieth United States infantry reported at department headquarters Thursday morning.

COLONIZATION ON INCREASE

Many Farmers Going Into South Platte Valley from Middle West States.

George L. McDonough, colonisation agent of the Union Pacific, has returned from an extended trip to the South Platte valley. Mr. McDonough reports a large number of settlers coming into that territory, most of whom are from Ohio, Indiana, Illinois and Iowa, with a few scattering from Pennsylvania. He says that the people in that country are just learning that It is not necessary to ship dairy and poultry products from the east, as has been the custom until recently. A large number of the thrifty eastern farmers have taken up these branches of farming and are making them pay. There is an almost unlimited outlet for these products in the mining camps of Colorado. Sugar beets are the principal crop at present and a very paying one. As high as thirty tons of beets have been produced from one acre of ground and they sell at from \$4 to \$4.50 per ton.

Extra fancy apples by the barrel and Black Hills potatoes at Buffett & Sons' Fourteenth and Harney.

Watch for the mis-spelled words-they're

Glympses Into Mythology. Ulysses was conversing with one of the Cyclops. "You tell me you never drink," said he. "It seems a pity."

"Wherefore?" demanded the Cyclops, glaring at Ulysses with his single eye. "Because," said Ulysses, "equipped as you are with one orb, you ought to be able to get away with an awful load before you begin seeing double." Thus it was that the famous wanderer sowed the seeds of intemperance.

SEASONABLE FASHIONS

Girl's Coat 4570-Long coats that cover the frocks always are becoming to little girls and make the most serviceable of all cold weather wraps. This one is made with a deep cape, that means both warmth and style, and a flat collar with stole ends. As shown the material is dark red zebeline with trimming of fancy black braid, but all cloths and cloaking materials are appropriate. The wide sleeves provide

comfort and are in the height of style. The coat is made with fronts and back and is fitted by means of shoulder and under-arm seam. The cape is circular and is arranged over the shoulders, the vollar over the cape, its stoles finishing the front edges. The sleeves are cut in one piece each and are gathered at the wrists, where they are held by stylishly shaped cuffs. The closing is effected in double-breasted style with buttons and buttonholes.

The quality of material required for the edium size (8 years) is 61/2 yards 27 inches wide, 3% yards 44 inches wide or 2% yards 62 inches wide, with 4% yards of braid to trim as illustrated.

The pattern \$570 is cut in sizes for a girl of 4, 6, 8 and 10 years of age.

For the accommodation of The Bea readers these patterns, which usually retail at from 25 to 50 cents, will be furnished at expense. In order to get a pattern enclose 10 cents, give number and name of pattern
